Skills

Programming Languages: Java, C, JavaScript, HTML5, CSS, Python, SQL

Tools: Git, GitHub, VS Code, STM32CubeIDE, Figma, Balsamiq, Android Studio, React

Areas: Android Development, Web Development, Embedded Systems, Algorithms, Data Structures

Education

Bachelor's Degree in Computer Science | **8.00 / 9.00 GPA**

York University, Toronto, Canada | September 2021 - December 2025

International Exchange Student

Waseda University, Tokyo, Japan | September 2023 - August 2024

Technical Projects

Post Guardian: Social Media Reflection Extension

- Developed a Chrome browser extension using JavaScript and TensorFlow.js that analyzes the sentiment of social media posts in real time and prompts users with reflection questions before publishing. Focused on DOM manipulation, browser extension APIs, and lightweight NLP integration to promote more intentional online communication.

GenGO!: Mobile Language Learning

- Designed and implemented an interactive **Android language-learning application** using **Java** and **Android Studio** as part of a research study on mobile-assisted language learning. Emphasized user interaction, UI responsiveness, and application structure.

Employment History

Sales Advisor

CDS Canada | June 2025 - Present

- Engaged with 100+ customers per shift by providing product samples, answering questions, and promoting sales in a friendly, approachable manner.
- Maintained a clean and organized demo station while following food safety and Costco compliance standards to ensure a positive shopping experience.

Freelance Web Developer

Canada Conseil Groupe | September 2025 - November 2025

- Implemented custom front-end features using **HTML**, **CSS**, and **JavaScript**, including layout customization and interactive components.
- Designed and developed a **responsive, production WordPress website** for a real client, collaborating directly with stakeholders to iterate on feedback and deploy the final product.

Volunteer Experience

IT Director

Lassonde Student Congress | August 2025 - Present

- Leading the overhaul of the official student congress website using the **React** framework to improve usability, performance, and accessibility.
- Managing website updates, technical troubleshooting, and long-term maintenance to support student engagement while working with other executive members to ensure the site aligns with organizational goals.
